Handbook of Alternative Theories of Economic Development

Edited by Erik S. Reinert, Professor of Technology Governance and Development Strategies, Tallinn University of Technology, Estonia and head, The Other Canon Foundation, Norway, Jayati Ghosh, Professor, Centre for Economic Studies and Planning, Jawaharlal Nehru University, India and Rainer Kattel, Professor of Innovation and Public Governance, Institute for Innovation and Public Purpose, University College London, UK

The Handbook of Alternative Theories of Economic Development explores the theories and approaches which, over a prolonged period of time, have existed as viable alternatives to today's mainstream and neo-classical tenets. With a total of more than 40 specially commissioned chapters, written by the foremost authorities in their respective fields, this volume represents a landmark in the field of economic development. It elucidates the richness of the alternative and sometimes misunderstood ideas which, in different historical contexts, have proved to be vital to the improvement of the human condition.

'This collection provides some useful insights into the reality of development processes for practitioners in local development.'
